No Wet Waterless Carclean

Attention: Mr Ray Clarke

Dear Ray

You have been looking after my "Ford F6 Typhoon" now for 6 months and I could not be any happier with the job you have done with the car. Your commitment to detailing my car every time and the treatment of the "No Wet" is superb to point that you now look after my wife's car "Mazda 6" who is also very pleased with the results so far.

I have instructed my staff with company vehicles to be in contact with you for the "No Wet" treatment in the future.

I have found the "No Wet" treatment to be the most effective treatment that I have come across over the past 20 years to finally do the job that I have been looking for.

The "No Wet" treatment gives my car a showroom shine just about everyday of the week. The environmentally friendly products and no water wastage especially in the drought conditions that we are experiencing in Queensland today are added benefits that make this treatment I believe to be the best in the market today and with the friendly service and commitment from Ray I could not ask for anything better.

I would not hesitate to recommend Ray and the "No Wet" treatment to anyone who would consider having Ray look after their vehicle now or in the future.

Kind Regards

Fred Chenouda
General Manager
